

# Unity Developer

## About Us

We are **pixel dairy productions inc.** a subsidiary of **pixelmolkerei**, one of the world's leading companies developing and producing high-end visualizations, virtual- augmented and mixed reality content for professional education and marketing in the medical field, with studios in Chur (Switzerland) and Montréal (Canada).

## Job Summary

We are looking for candidates with a minimum of 3 years' experience in creating and shipping Unity applications across multiple platforms.

## Job description

You will use the Unity engine to create interactive experiences for our clients in the medical field. These can be VR e-learning modules, medical device simulators or marketing showcases.

You will be working closely with our creative director and team, making sure the resulting products satisfy our clients' high standards.

## Required Skills

- Proficient in the various features of Unity (asset integration, lighting, animation system, rendering, optimization / profiler usage, cross platform development...)
- Strong in C# programming
- Debugging and testing skills to deliver stable releases

## Bonus skills

- Experience with VR/AR/MR development
- Maya knowledge
- Additional programming languages (Python, MEL, PHP, C++...)
- UI / UX / game design knowledge
- Shader writing
- MySQL / database know how

## You

- Are able to deliver great results while meeting deadlines set by our clients
- Are proactive and show initiative when a challenge arises
- Are a strong problem solver
- Show great attention to detail
- Are pragmatic, solution- and team-oriented
- Have strong communication skills
- Want to work in a dynamic and fast-growing company

**Required language:** English

**Job Location:** Montréal

**Job Type:** Full-time

This full-time position is located onsite in our office in MONTREAL. Only the selected candidates with proven background with Unity will be contacted. Please note that you may be asked to provide references. Unfortunately, candidates desiring relocation or virtual work will not be considered at this time.

Must be eligible to work in Canada.

To apply for this position please email your cover letter and CV with link to your reel to: **[jobs@pixeldairy.ca](mailto:jobs@pixeldairy.ca)**
